

US Racing - Betting Rules

Bets on all US Races, placed through NRC's network will go directly into the relevant racetrack pool.

All bets need to be confirmed as being accepted into the pool to be valid -this will be confirmed to you via your bet receipt. In the United States racetrack pools close for betting purposes when the horses begin to enter the stalls so you need to ensure you place your bets in good time.

Your bets will be settled using the odds as declared by the US tracks as the official results. All odds and potential dividends displayed prior to a race starting are for guidance only and are provided to us by the racetracks.

Rules

Nicosia Race Club can only accept bet types that are made available by the relevant track and for which the appropriate betting pool has been opened.

Nicosia Race Club will refund stakes on any race declared a No Contest by the relevant US track. A simple rule is that when there is a dividend for a bet type declared – then you're on!

Nicosia Race Club will refund stakes on certain pool bet types when the amount of runners in a race is less than four.

All dividends from the track are returned to a €2 unit.
